## Invitation

Dear Colleagues,

I have a pleasure to invite you to the "Critical Limb Ischemia" meeting held in Lausanne. Recent advances in the management of patients with critical limb ischemia fully justify this multidisciplinary management.

The main objectives of the meeting are to:

- Define critical limb ischemia (CLI)
- Identify the consequences associated with PAD and CLI
- Describe the changing paradigm of surgery to endovascular interventions
- Understand the underlying diseases and lifestyle choices that contribute to the patient management
- Describe endovascular options for the CLI management
- Utilize timely and appropriate referral and multidisciplinary care for patients
- Review and discuss the role of emerging therapies for CLI

The symposium is free access meeting that has been designed for interventionalists, clinical cardiologists, vascular surgeons, radiologists, wound care specialists, podiatrists, endocrinologists, vascular allied healthcare professionals, diabetes educators, and primary care physicians

Welcome to Lausanne!

**Prof. Salah Dine Qanadli**  
Department of Radiology

## Programme

### Moderator **Salah Dine Qanadli**

14h00	<b>Critical Limb Ischemia and Ischemic Foot</b> Eric Haesler, Department of Angiology, Lausanne
14h15	<b>Imaging of the CLI</b> Tri-Linh Lu, Department of Radiology, Lausanne
14h30	<b>Clinical management of the CLI</b> Cédric Bron, Department of Angiology, Lausanne
14h45	<b>Endovascular treatment for BTK arteries</b> Gian Batista Danzi, Department of Cardiology, Milano
15h15	<b>Surgical treatment for BTK arteries</b> Bettina Marty, Department of Cardio-Vascular Surgery, Lausanne
15h30	<b>Coffee break</b>

### Moderator **Ludwig K. von Segesser**

16h00	<b>Hybrid approaches for BTK lesions.</b> François Saucy, Department of Thoracic and Vascular Surgery, Lausanne
16h15	<b>Spinal cord stimulations for CLI</b> Enrico Ferrari, Philippe Gersbach, Department of Cardio-Vascular Surgery, Lausanne
16h30	<b>Cell and gene therapy strategies for controlled angiogenesis</b> Andrea Banfi, Cell and Gene Therapy, Basel
17h00	<b>Closing remarks and aperitif</b>
